

To: Rt Hon John Denham MP
Department for Communities and Local Government
Eland House
Bressenden Place
London
SW1E 5DU

I/we wish to object strongly to the proposed building of 1000s of new houses on green belt land in the East Dorset area and particularly around the town of Wimborne. The development of green belt land will lead to urban sprawl and the merging of towns and villages resulting in the loss of the individual identity of many historic settlements.

Furthermore, this proposed building programme threatens our unique and fragile environment and is not supported by improvements in the necessary infrastructure i.e. roads, schools, medical services etc.

East Dorset is a unique and sensitive environment and the number and positioning of new developments should be decided by people with knowledge of the local area, the councillors elected by the residents of East Dorset.

Signed
